INTRODUCTION

The Economic Commission for Latin America and the Caribbean, Subregional Headquarters for the Caribbean is pleased to present you the tenth volume of **Selected Statistical Indicators of Caribbean Countries**. This volume has taken a look at some of the series presented and has sought to bring the presentation of a number of tables whose formats have changed over time more closely in line with what is published at national level. This has resulted in the redesign of the format of a number of tables.

The information contained in this document will form the basis on which the search for this type of data will be done through the relational database route. ECLAC is instituting measures to make the data more accessible to users who can communicate via computers with internet access. At the same time, the office will continue to serve its client community that relies on hard copy and is committed to exploring ways of increasing collaboration with other agencies and governments in the collection and sharing of statistical data.

The Office acknowledges the valuable cooperation of the statistical offices in the subregion without which the preparation of this document would not have been possible.

SOURCE: Central Bank of Aruba, IMF Staff estimates.

<1> 1986: Data not strictly comparable with subsequent years as statistics up to and including 1986 were before Aruba's Status Aparte when Aruba was still a part of the Netherlands Antilles.

<2> Current revenue for 1986, 1987, 1988 not specified due to different statistical grouping: "Other current revenue" and "capital revenue" were added together making a specification for "current revenue" not possible.

<3> For years 1985-1988 this figure combines Income Taxes and Income Surtax.

<4> For years 1986-1988 this figure combines Other Current Revenue and Capital Revenue.
